

Developmental Trajectories in Psychopathology: what really matters

Sala Napoleonica, Università degli Studi di
Milano | November 23-24, 2023

Closing Congress of Ricerca Finalizzata REMIND - REal Matters IN Developmental psychopathology. A 15 years follow-up study of risk and resilience factors and outcomes from childhood to adulthood

November 23

13.30 Registration

14.00 Greetings

Prof. Aldo Bruno Gianni - Preside, Facoltà di Medicina, Università degli Studi di Milano

Opening

Maria Nobile, Paolo Brambilla, Maurizio Bonati

14.30 Lectures

Chairmen: Massimo Molteni, Elisa Fazzi

Fetal Brain Development, Mireille Bekker

Adverse Brain Development related to Stress, Manon Benders

15.30 Coffee break

15.50 Symposium - Developmental trajectories: the relevance of longitudinal studies in the study of psychopathology

Chairmen: Antonella Costantino, Armando D'Agostino

15.50 Homotypic and heterotypic stability of psychopathological traits from childhood up until adulthood, Maria Nobile

16.10 Transition care between adolescent and adult services for young people with chronic health needs in Italy: the experience of young adults with ADHD, Antonio Clavenna

16.30 The effects of maternal stress during pregnancy on child development from birth to preschool age: the EDI study, Alessandra Frigerio

16.50 Transition from child/adolescent to adult mental health services: the European project 'MILESTONE' and its lessons, Giovanni de Girolamo

17.10 Panel discussion

Maria Nobile, Paolo Brambilla, Antonio Clavenna and all the speakers

Discussants: Antonella Costantino, Armando D'Agostino

18.00 Closing remarks

November 24

9.00 Opening

Maria Nobile, Paolo Brambilla, Antonio Clavenna

9.30 Lectures

Chairman: Antonella Delle Fave

Brain maturation in term and preterm “families”, David Edwards

Brain development and behavior following very pre-term birth, Chiara Nosarti

10.30 Coffee break

11.00 Symposium - Risk and resilience factors for the development of Internalizing and Externalizing symptoms

Chairmen: Maria Nobile, Renato Borgatti

11.00 An epidemiological perspective on REMIND population, Antonio Clavenna

11.20 Role of epigenetic mechanism and perinatal complications in the development and persistence of psychopathological traits during adolescence, Maddalena Mauri, Federica Tizzoni

11.40 The relationship between cognitive skills and internalizing and externalizing symptoms: an analysis of the samples from the GENESIS and SPES studies, Carolina Bonivento

12.00 Panel discussion

Maria Nobile, Paolo Brambilla, Antonio Clavenna and all the speakers

Discussants: Simona Scaini, Giampaolo Perna

12.30 Break

14.00 Lectures

Chairmen: Bernardo Dell’Osso, Benedetto Vitiello

Multimodal neuroimaging studies in affective and non-affective psychoses, Hilleke Hulshoff Pol

Transdiagnostic psychopathology and brain structure across affective and psychotic disorders, Tilo Kircher

15.00 Coffee break

15.30 Symposium - Functional and Structural biomarkers: neuroimaging contribution to neurodevelopmental psychiatry

Chairmen: Pierangelo Veggiotti, Orsola Gambini

15.30 Social brain, neurodevelopment and mental health, Marcella Bellani

15.50 Beyond reading in Developmental dyslexia through functional MRI, Denis Peruzzo

16.10 Exploring the role of environment and brain development in the onset of psychopathology, Eleonora Maggioni

16.30 Panel discussion

Maria Nobile, Paolo Brambilla, Antonio Clavenna and all the speakers

Discussants: Annabella Di Giorgio, Monica Fumagalli

17.30 Closing remarks

Scientific Committee

Maria Nobile, Scientific Institute E. Medea, Bosisio Parini

Paolo Brambilla, Università degli Studi di Milano e Fondazione IRCCS Ca' Granda Ospedale Maggiore Policlinico, Milano

Maurizio Bonati, Istituto di Ricerche Farmacologiche Mario Negri, Milano

Information

Language: English

The participation is free; registration is mandatory

Venue

Sala Napoleonica

Università degli Studi di Milano

Via Sant'Antonio, 12 - Milano

Faculty

Marcella Bellani, Università degli Studi Verona

Mireille Bekker, UMC Utrecht University

Manon Benders, UMC Utrecht University

Maurizio Bonati, Istituto di Ricerche Farmacologiche Mario Negri, Milano

Carolina Bonivento, Istituto Scientifico IRCCS E. Medea, Bosisio Parini (LC)

Renato Borgatti, Istituto Neurologico Nazionale a Carattere Scientifico C. Mondino, Pavia

Paolo Brambilla, Università degli Studi di Milano e Fondazione IRCCS Ca' Granda Ospedale Maggiore Policlinico, Milano

Antonio Clavenna, Istituto di Ricerche Farmacologiche Mario Negri, Milano

Antonella Costantino, Fondazione IRCCS Ca' Granda Ospedale Maggiore Policlinico, Milano

Armando D'Agostino, Università degli Studi di Milano

Giovanni de Girolamo, IRCCS San Giovanni di Dio Fatebenefratelli, Brescia

Antonella Delle Fave, Università degli Studi di Milano

Bernardo Dell'Osso, ASST Fatebenefratelli Sacco, Milano

Annabella Di Giorgio, ASST Papa Giovanni XXIII, Bergamo

David Edwards, Centre for the Developing Brain, King's College London

Elisa Fazzi, Università degli Studi di Brescia

Alessandra Frigerio, Istituto Scientifico IRCCS E. Medea, Bosisio Parini (LC)

Monica Fumagalli, Università degli Studi di Milano e Fondazione IRCCS Ca' Granda Ospedale Maggiore Policlinico, Milano

Orsola Gambini, ASST Santi Paolo e Carlo, Università degli Studi di Milano

Hilleke Hulshoff Pol, UMC Utrecht

Tilo Kircher, Dept. of Psychiatry, Philipps-Universität Marburg - UKGM

Maddalena Mauri, Istituto Scientifico IRCCS E. Medea, Bosisio Parini (LC)

Eleonora Maggioni, Politecnico di Milano

Massimo Molteni Istituto Scientifico IRCCS E. Medea, Bosisio Parini (LC)

Maria Nobile, Istituto Scientifico IRCCS E. Medea, Bosisio Parini (LC)

Chiara Nosarti, Centre for the Developing Brain, King's College London

Giampaolo Perna, Humanitas University

Denis Peruzzo, Istituto Scientifico IRCCS E. Medea, Bosisio Parini (LC)

Letizia Squarcina, Università degli Studi di Milano

Federica Tizzoni, Istituto Scientifico IRCCS E. Medea, Bosisio Parini (LC)

Simona Scaini, Sigmund Freud University, Milano

Benedetto Vitiello, Università degli Studi di Torino

Pierangelo Veggiotti, Università degli Studi di Milano e Ospedale Buzzi, Milano
